

# *Xymba USB DiscFlip: After launching the software, LightScribe Print icon does not appear in the toolbar.*

**There could be several reasons for this.**

**Reason 1:** A non LightScribe RW-drive is installed in the unit.

Â

**Recommendation 1:**

Check the unit's Serialnumber, shipping record or log file to see if the drive is LightScribe RW-drive.

Â

Â

---

Â

Â

**Reason 2:** LightScribe System Software (LSS) and LightScribe Windows Public SDK (SDK) were not successfully installed during the software installation.

Â

**Recommendation 2:**

Check whether the customer has installed LSS and SDK. Go to [Start] -> [Program] to see if it is installed or go to [Setting] -> [Control Panel] -> [Add/Remove program]. After completing the installation, LightScribe Print will appear.

Â

# *Xymba USB DiscFlip: After launching the software, LightScribe Print icon does not appear in the toolbar.*

Â

---

Â

Â

**Reason 3:** Conflict between UAC and LS Print function. (Only **Vista**)

Â

## **Recommendation:**

Deactivate the UAC function and see info below:

<http://www.howtogeek.com/howto/windows-vista/disable-user-account-control-uac-the-easy-way-on-windows-vista/>

Â

Â

---

Â

Â

**Reason 4:** Not log in as Admin (only **Vista**)

Â

## **Recommendation 4:**

## *Xymba USB DiscFlip: After launching the software, LightScribe Print icon does not appear in the toolbar.*

Log in with the Admin account.
